BREAD BOOZE BACON

SANTA BROWNIE MIX JAR WRAP

PAGE 1 / SANTA FRONT PANEL

PRINT & ASSEMBLE

1. Print both pages on letter-size paper at 100% / Actual Size. Turn off Fit or Shrink. Each cut panel should measure 7 x 4½ inches.

2. Cut out both rectangles. Use the thin outer border as your cutting line. Write the mix's use-by date on the recipe panel.

3. Position before taping. Center Santa on the front of your quart jar and the recipe on the opposite side. Keep both bottom edges level and line up the black belt at the side overlaps.

4. Adjust the overlaps evenly. Slide the blank side areas over or under each other until snug. Keep Santa and the recipe centered. Trim excess from blank side edges only if needed.

5. Secure the wrap. Tape the two side seams. Add double-sided tape between the paper and jar if needed to prevent slipping.

Jar shapes vary. Test the paper wrap on your jar before filling it.

Use by: up to 6 months, or the earliest ingredient best-by date, whichever comes first.
